Since 1956

## BTU *Dump Body Spreader*

**NEW  
POLYGONAL  
RADIUS  
SHAPE \***

\* Optimized gravity flow /  
Maximized yardage

### **DUMP BODY Mode**

### **SPREADER Mode**

## **Setting new standards in design**

- **Simple and safe to operate**
- **Excellent stability of the tractor:**  
aggregates flow by gravity onto  
the center conveyor
- **Spreading configurations available:**
  - left and/or right
  - both sides simultaneously
  - or rear discharge

The BTU Dump Body Spreader is always ready to perform any kind of work; it is a rugged dump body easily convertible into a very flexible spreader.

Body shown with pre-wetting system (optional)

## EXCLUSIVE FEATURES

- High strength steel body construction Grade 450 - 4X stronger than Corten steel
- **Longitudinal conveyor:** chain links are covered for more performance
- **Protective chain cover** inserted in center of unit to protect chain (not shown)

- **Self-cleaning inverted cylinder:** helps prevent contamination inside cylinder
- **Removeable conveyor drive system:** for easier bench servicing
- **Extra-life sprockets** with double shoulders for longer chain life
- **Chain tension adjusters** front mounted for easier access

### Tailgate latch mechanism

- Adjustable to compensate wear with over-center cam design for positive locking in case of air failure
- Twin air cylinders mechanism (better performance and reliability than a brake chamber system)

## OPTIONS

- Chain type cross conveyor (left or right side spreading)
- Rear spinner discharge
- Planetary type gearbox
- Close-loop electronic spreading control
- Top screens
- Tarp system (manual or electric)
- Removeable protective sub-plate (return of chain)
- Summer chute for shoulder work
- Spreading apron removeable without tools
- Polyurethane spinner
- Spinner deflector
- Barn door
